Meeting Objective: Discuss key functions to implement in the chatbot, Discuss who are the actors for the user stories, gantt char and setting up taiga.io.

Meeting commenced: 10AM

Attendees:

Richelle

Robson

Ka Weng

QinXue

Mervin

Item	Agenda	Discussion Outcomes	Actions / Follow up	Due Date, if any
1	Discuss key functions to implement in the chatbot.	Features we have settled on so far: 1. Web crawling 2. Upload documents 3. Q&A training 4. Source Links 5. Reviews of Chat history 6. Ticket creation (need human intervention) Good to have: 1. Human handover 2. Email summaries More research to be done: 1. Multilingual response	Ka Weng to check on the open source LLM (OpenLlama) that he has found.	N/A
2	Discuss who are the actors for the user stories.	We have narrowed down to 4 different users 1. System admin, to upload all the files, tune the model after the Q&A. More	Split the user stories up to do. - Ka Weng and Qin Xue to	21/04/26

		focused on the backend side, the product. 2. User admin personalisation for the chatbot, in charge of doing the web crawling and uploading the documents 3. Ticketing admin solely for handling the user ticketing. 4. The users of the chatbot itself. Open to adding more actors as we go on.	handle users. - Richelle and Mervin to do User admin and System admin. - Robson to do ticketing admin.	
3	Gantt Chart	Ka Weng to do Gantt chart.	N/A	N/A
4	Setting up taiga.io	Richelle to set up taiga.io for the group.	N/A	N/A
5	Send the google drive share link to supervisor Dr Loo		Ka Weng to send it.
